This Key Information Memorandum (KIM) sets forth the information, which a prospective investor ought to know before investing. For further details of the Scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors’ rights & services, risk factors, penalties & pending litigations, etc., investors should, before investment, refer to the respective Scheme Information Document and Statement of Additional Information available free of cost at any of the Investor Service Centres or distributors or from the website www.nipponindiamf.com / www.nipponindiaetf.com

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996, as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM. This KIM is dated October 18, 2019.
The investment objective of the Scheme is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty CPSE Index, by investing in the Securities which are constituents of the Nifty CPSE Index in the same proportion as in the Index.

There can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

The Scheme will not lend more than 20% of its total assets in the stocks of its underlying index in the same proportion as in the Index.

The maximum exposure of the Scheme to a single intermediary in the stock lending programme at any point of time would be limited to 5% of the market value of its equity portfolio or up to such limits as may be specified by SEBI. The Scheme will not lend more than 20% of its corpus.

The above stated percentages are indicative and not absolute.

The Scheme will not invest in securitized debt, ADR, GDR, foreign Securities, nor will it engage in short selling and Repo in corporate debt.

As the Nifty CPSE Index is an Equity index, the constituents of the index do not include debt Securities.

Cash and cash equivalents will include Cash Component of the Portfolio Deposit received for Subscription and payable on Redemptions, Dividend received by the Scheme which is pending deployment, etc.

The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. Under normal circumstances, the AMC shall endeavor that the Tracking Error of the Scheme shall not exceed 2% per annum. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

For the time duration of change in the index constituents, the Scheme may have to invest in Derivatives to maintain the respective weightages for the companies, constituting the index. Other than for purposes of portfolio rebalancing, the Scheme will not invest in Derivatives. These investments would be for a short period of time. The notional exposure of the Scheme in Derivative instruments shall be restricted to 10% of the net assets of the Scheme. The combined exposure of equity shares, debt Securities and gross notional exposure of Derivatives instruments shall not exceed 100% of the net assets of the Scheme.

Subject to the SEBI Regulations as applicable from time to time, the Scheme may, if the Trustees permit, participate in securities lending. The maximum exposure of the Scheme to a single intermediary in the stock lending programme at any point of time would be limited to 5% of the market value of its equity portfolio or up to such limits as may be specified by SEBI. The Scheme will not lend more than 20% of its corpus.

The above stated percentages are indicative and not absolute.

The Scheme will not invest in securitized debt, ADR, GDR, foreign Securities, nor will it engage in short selling and Repo in corporate debt.

As the Nifty CPSE Index is an Equity index, the constituents of the index do not include debt Securities.

Cash and cash equivalents will include Cash Component of the Portfolio Deposit received for Subscription and payable on Redemptions, Dividend received by the Scheme which is pending deployment, etc.

The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. Under normal circumstances, the AMC shall endeavor that the Tracking Error of the Scheme shall not exceed 2% per annum. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

For the time duration of change in the index constituents, the Scheme may have to invest in Derivatives to maintain the respective weightages for the companies, constituting the index. Other than for purposes of portfolio rebalancing, the Scheme will not invest in Derivatives. These investments would be for a short period of time. The notional exposure of the Scheme in Derivative instruments shall be restricted to 10% of the net assets of the Scheme. The combined exposure of equity shares, debt Securities and gross notional exposure of Derivatives instruments shall not exceed 100% of the net assets of the Scheme.

Subject to the SEBI Regulations as applicable from time to time, the Scheme may, if the Trustees permit, participate in securities lending. The maximum exposure of the Scheme to a single intermediary in the stock lending programme at any point of time would be limited to 5% of the market value of its equity portfolio or up to such limits as may be specified by SEBI. The Scheme will not lend more than 20% of its corpus.

The above stated percentages are indicative and not absolute.

The Scheme will not invest in securitized debt, ADR, GDR, foreign Securities, nor will it engage in short selling and Repo in corporate debt.

As the Nifty CPSE Index is an Equity index, the constituents of the index do not include debt Securities.

Cash and cash equivalents will include Cash Component of the Portfolio Deposit received for Subscription and payable on Redemptions, Dividend received by the Scheme which is pending deployment, etc.

The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. Under normal circumstances, the AMC shall endeavor that the Tracking Error of the Scheme shall not exceed 2% per annum. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

For the time duration of change in the index constituents, the Scheme may have to invest in Derivatives to maintain the respective weightages for the companies, constituting the index. Other than for purposes of portfolio rebalancing, the Scheme will not invest in Derivatives. These investments would be for a short period of time. The notional exposure of the Scheme in Derivative instruments shall be restricted to 10% of the net assets of the Scheme. The combined exposure of equity shares, debt Securities and gross notional exposure of Derivatives instruments shall not exceed 100% of the net assets of the Scheme.

Subject to the SEBI Regulations as applicable from time to time, the Scheme may, if the Trustees permit, participate in securities lending. The maximum exposure of the Scheme to a single intermediary in the stock lending programme at any point of time would be limited to 5% of the market value of its equity portfolio or up to such limits as may be specified by SEBI. The Scheme will not lend more than 20% of its corpus.

The above stated percentages are indicative and not absolute.

The Scheme will not invest in securitized debt, ADR, GDR, foreign Securities, nor will it engage in short selling and Repo in corporate debt.

As the Nifty CPSE Index is an Equity index, the constituents of the index do not include debt Securities.

Cash and cash equivalents will include Cash Component of the Portfolio Deposit received for Subscription and payable on Redemptions, Dividend received by the Scheme which is pending deployment, etc.

The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. Under normal circumstances, the AMC shall endeavor that the Tracking Error of the Scheme shall not exceed 2% per annum. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

For the time duration of change in the index constituents, the Scheme may have to invest in Derivatives to maintain the respective weightages for the companies, constituting the index. Other than for purposes of portfolio rebalancing, the Scheme will not invest in Derivatives. These investments would be for a short period of time. The notional exposure of the Scheme in Derivative instruments shall be restricted to 10% of the net assets of the Scheme. The combined exposure of equity shares, debt Securities and gross notional exposure of Derivatives instruments shall not exceed 100% of the net assets of the Scheme.

Subject to the SEBI Regulations as applicable from time to time, the Scheme may, if the Trustees permit, participate in securities lending. The maximum exposure of the Scheme to a single intermediary in the stock lending programme at any point of time would be limited to 5% of the market value of its equity portfolio or up to such limits as may be specified by SEBI. The Scheme will not lend more than 20% of its corpus.

The above stated percentages are indicative and not absolute.

The Scheme will not invest in securitized debt, ADR, GDR, foreign Securities, nor will it engage in short selling and Repo in corporate debt.

As the Nifty CPSE Index is an Equity index, the constituents of the index do not include debt Securities.

Cash and cash equivalents will include Cash Component of the Portfolio Deposit received for Subscription and payable on Redemptions, Dividend received by the Scheme which is pending deployment, etc.

The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. Under normal circumstances, the AMC shall endeavor that the Tracking Error of the Scheme shall not exceed 2% per annum. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

For the time duration of change in the index constituents, the Scheme may have to invest in Derivatives to maintain the respective weightages for the companies, constituting the index. Other than for purposes of portfolio rebalancing, the Scheme will not invest in Derivatives. These investments would be for a short period of time. The notional exposure of the Scheme in Derivative instruments shall be restricted to 10% of the net assets of the Scheme. The combined exposure of equity shares, debt Securities and gross notional exposure of Derivatives instruments shall not exceed 100% of the net assets of the Scheme.

Subject to the SEBI Regulations as applicable from time to time, the Scheme may, if the Trustees permit, participate in securities lending. The maximum exposure of the Scheme to a single intermediary in the stock lending programme at any point of time would be limited to 5% of the market value of its equity portfolio or up to such limits as may be specified by SEBI. The Scheme will not lend more than 20% of its corpus.
### Factors relating to Portfolio Rebalancing

- **Volatility**: Substantial redemptions of units within a limited period of time could require the scheme to liquidate positions more rapidly than the scheme's NAV will react to the securities market movements.

- **Market Risk**: The scheme may trade above or below its NAV. The NAV of the scheme will fluctuate with changes in the market value of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

- **Liquidity Risk**: The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme. The value of the scheme's investments may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.

- **Index Risk**: In case the scheme invests in stocks of companies outside the index due to corporate actions, then the fund manager will rebalance the portfolio of the scheme to the position indicated in the asset allocation table within a period of 30 days from the date of said deviation. If market conditions do not permit exiting the corporate action within this stipulated period of 30 days then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications.

### Tracking Error Risk

The scheme will be subject to Tracking Error risk. The fund manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as fees and expenses of the respective scheme, corporate actions, cash balance, changes to the underlying index and regulatory restrictions, which may result in Tracking Error with the underlying index of the schemes. The scheme returns may therefore deviate from those of their respective indices. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the scheme. The fund manager would monitor the tracking error of the scheme on an ongoing basis and seek to minimize the tracking error to the maximum extent possible. Under normal circumstances, the AMC shall endeavor that the Tracking Error of the scheme shall not exceed 2% per annum. There can be no assurance or guarantee that the scheme will achieve any particular level of Tracking Error relative to performance of the underlying index.

### Risk Factors relating to Portfolio Rebalancing

- **Risk Factors relating to Portfolio Rebalancing**: In the event that the asset allocation of the scheme deviates from the ranges as provided in the asset allocation table in the SID, then the fund manager will rebalance the portfolio of the scheme to the position indicated in the asset allocation table within a period of 7 days from the date of said deviation. However, if market conditions do not permit the fund manager to rebalance the portfolio of the scheme within the stipulated period of 7 days then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications.

### Risk Factors in case of Corporate Actions

- **Risk Factors in case of Corporate Actions**: In case the scheme invests in stocks of companies outside the index due to corporate actions, then the fund manager will rebalance the portfolio of the scheme to the position indicated in the asset allocation table within a period of 30 days from the date of said deviation. However, if market conditions do not permit exiting the corporate action within this stipulated period of 30 days then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications.

### Units of the Scheme may trade at prices other than NAV

The units of the scheme may trade above or below its NAV. The NAV of the scheme will fluctuate with changes in the market value of the holdings of the scheme. The trading prices of the units of the scheme will fluctuate in accordance with changes in its NAV as well as market supply and demand for the units of the scheme. However, given that units of the scheme can be created and redeemed in Creation Units directly with the mutual fund, it is expected that large discounts or premiums to the NAV of units of the scheme will not sustain due to arbitrage opportunity available.

### Market Risk

The scheme’s NAV will react to the securities market movements.

### Substantial Redemption/Redemption Risk

Substantial redemptions of units within a limited period of time could require the scheme to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of both the units being redeemed and that of the outstanding units of the scheme.

### Volatility Risk

The equity markets and derivative markets are volatile and the value of derivative contracts and other instruments correlated with the equity markets may fluctuate dramatically from day to day. This volatility may cause the value of investment in the scheme to decrease.

### Risk mitigation strategy

- **Market Risk**: Market risk is a risk which is inherent to an equity scheme. With the scheme following a passive investment strategy, the scheme will invest in securities in accordance with the weightage in the underlying Nifty CPSE Index and will typically not seek to take any active risk relative to such index. As a passive scheme is designed to track an index, the scheme aims to track Nifty CPSE Index, and aims to purchase Securities of the constituent companies as per the composition and weightages provided in the Nifty CPSE Index. Therefore, the specific market risk associated with the Nifty CPSE Index is inherent to this scheme. Investors should however note the section on Tracking Error Risk set out below.

- **Liquidity Risk**: The underlying index will have constituents which have high level of liquidity. Hence liquidity issues in the scheme related to underlying constituents is not envisaged.

- **Tracking Error Risk**: The objective of the Scheme is that the NAV should closely track the performance of Nifty CPSE Index over the same period subject to tracking error. The scheme will endeavor to maintain a low tracking error by actively aligning the portfolio in line with the index.

---

**Plans and Options**

The scheme offers only growth option. unit holders are requested to read the detailed sections on Standard Risk Factors and the Scheme Specific Risk Factors applicable to the scheme provided in the SID carefully before making investments in the scheme.
**Applicable NAV for Subscriptions / Redemptions (after the Scheme opens for repurchase and sale)**

Investors / Unit holders to note that the below mentioned Cut-off time are not applicable to transactions undertaken on a recognised Stock Exchange and are only applicable to transactions undertaken at the Official Points of Acceptance.

The Cut-off time for receipt of valid application for Subscriptions and Redemptions is 3.00 p.m. However, as the Scheme is an Exchange Traded Fund, the Subscriptions and Redemptions of Units would be based on the Portfolio Deposit and Cash Component as defined by the Mutual Fund for that respective Working Day.

**Minimum Application Amount / Number of Units**

<table>
<thead>
<tr>
<th>A. Directly with the Fund</th>
<th>The Investors can create / Redeem in exchange of Portfolio Deposit and Cash Component in Creation Unit Size of the Scheme.</th>
</tr>
</thead>
<tbody>
<tr>
<td>B. On the Exchange</td>
<td>The minimum number of Units that can be bought or sold by the investors on the Exchange is 1 (one) Unit and in multiples thereof.</td>
</tr>
</tbody>
</table>

**Dispatch of Repurchase (Redemption) Request**

For Redemption request received directly with the Fund

The Redemption or repurchase proceeds shall be dispatched to the Unit holders within 10 Working Days from the date of Redemption or repurchase.

**Payment of proceeds**

The Fund will dispatch the Redemption proceeds within 10 Working Days from the date of acceptance of the Redemption request.

**Benchmark Index**

Nifty CPSE TRI

**About the Index**

Nifty CPSE Index is constructed in order to facilitate Government of India's initiative to dis-invest some of its stake in selected CPSEs. The Government opted for ETF route for disinvestment. The ETF shall track the performance of the Nifty CPSE Index. The index values are to be calculated on free float market capitalization methodology. The index has base date of 01-Jan-2009 and base value of 1000. Weights of index constituent shall be re-aligned (i.e. capped at 20%) on a quarterly basis after the expiry of the F&O contracts in March, June, September and December.

**Selection Criteria's for the Nifty CPSE Index:**

The CPSEs selected meet below mentioned parameters:

1. Included in the list of CPSEs published by the Department of Public Enterprise
2. Listed at National Stock Exchange of India Ltd. (NSE)
3. Having more than 51.50% government holding (stake via Govt. of India or President of India) under promoter category.
4. Companies having average free float market capitalization of more than 1,000 Cr. for six month period ending August 2018 are selected.
5. Companies which are IRDA dividend norms compliant shall be considered eligible to be included in the index

**Index Composition as on 30/09/2019 is as below:**

<table>
<thead>
<tr>
<th>Company Name</th>
<th>Weightage (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bharat Electronics Ltd.</td>
<td>6.86</td>

<td>0.66</td>
</tr>
</tbody>
</table>

**Dividend Policy**

In accordance with the SEBI Regulations on the procedure for declaration of Dividend, the Trustees may declare Dividend to the Unit holders under the Scheme subject to the availability of distributable surplus, and the actual distribution of Dividend, the frequency of distribution, the quantum of Dividend and the record date will be entirely at the discretion of the Trustees. Such Dividend will be payable to the Unit holders whose names appear on the register of Unit holders on the record date, as fixed by the Trustees for the Scheme. The Dividend declared, if any, shall be net of tax deducted at source, wherever applicable, to the Unit holders within 30 days from the declaration of Dividend, if any.

The Scheme will follow the requirements stipulated in the listing agreement for declaration of dividend.

The Trustees reserve the right to declare Dividends on a regular basis. The Fund does not guarantee or assure declaration or payment of Dividends. Such declaration of Dividend, if any, is subject to Scheme's performance and the availability of distributable surplus in the Scheme at the time of declaration of such Dividend.

**Effect of Dividend**

If the fund declares Dividend, the NAV of the Scheme will stand reduced by the amount of Dividend and dividend distribution tax (if applicable) paid.

All the Dividend payments shall be in accordance and compliance with SEBI Regulations and Exchange regulations, as applicable from time to time.

**Procedure for distribution of Dividend**

The Dividend proceeds may be paid by way of cheques, Dividend warrants / direct credit / NEFT / RTGS / ECS or any other manner to the Unit holder’s bank account as specified in the Registrar’s / Depository’s records. The AMC, at its discretion at a later date, may choose to alter or add other modes of payment.

Please refer to the Statement of Additional Information for details on unclaimed Redemptions and Dividends.

**Dematerialization**

The Units of the Scheme will be available in dematerialized form. This helps in consolidating with other portfolio holdings.

**Units Offered at Premium/Discount**

As the Units of the Scheme can be bought / sold directly from the Mutual Fund, this mechanism provides efficient arbitrage between the traded prices and the NAV, thereby reducing the incidence of the Units of the Scheme being traded at premium / discounts to NAV.
Under the Tap Structure, Investors / Unit holders will be able to Subscribe for Units of the Scheme in multiples of Tap Structure Creation Unit Size at a predetermined discount (if any) as set out in this SID. The AMC will announce by way of notice, which will be disclosed on the website of the Mutual Fund (www.nipponindiamf.com / www.nipponindiaetf.com under the Tap Structure section of the Scheme) / Investor Services Centers (ISCs), at least 5 Working Days before the commencement of any particular Tap Structure Period, the open date for that particular Tap Structure Period and the maximum number of Units (the “Tap Issue Limit”) will be in multiples of Tap Structure Creation Unit Size which will be made available during that particular Tap Structure Period. If the Tap Issue Limit is reached at any particular time on any particular Working Day during that Tap Structure Period, the Tap Structure shall be immediately stopped for the rest of that particular Tap Structure Period irrespective of the closing date for that particular Tap Structure Period. Post the opening of any particular Tap Structure Period, the provisional number of Creation Units for Tap Structure available for Subscription under that particular Tap Structure Period on any particular Working Day shall be disclosed on the website of the Mutual Fund (www.nipponindiamf.com / www.nipponindiaetf.com under the Tap Structure section of the Scheme) by 9.00 am based on the Tap Issue Limit for that particular Tap Structure Period and the Creation Units for the Tap Structure already subscribed under the Tap Structure till the closing of the previous Working Day from the open date of that particular Tap Structure Period; hence investors are requested to refer to the website of the Mutual Fund (www.nipponindiamf.com / www.nipponindiaetf.com under the Tap Structure section of the Scheme). During any particular Tap Structure Period, the AMC will announce the closing date at least 5 Working Days before closure of that particular Tap Structure Period.

Under the Tap Structure, the underlying Nifty CPSE Index shares (in the form of an Index basket) will be purchased by the Scheme directly from the GOI on every Working Day (as required) for the Tap Structure Period up to the Tap Issue Limit allocated by GOI to the Scheme for that period. Under the Tap Structure, Investors can only Purchase Units in multiples of the Tap Structure Creation Unit Size by paying cash, and the AMC/Scheme will not accept any Portfolio Deposit(s) from the Investors for such Purchases.

Details such as (i) application size for determining Investor category, (ii) multiple applications by same Investor, (iii) minimum amount for Purchase under Tap Structure, (iv) where can the applications for Subscription under Tap Structure be submitted, (v) ongoing price for Subscription under Tap Structure, (vi) allotment of Units, etc. will be informed to Unit holders at least 5 Working Days before the commencement of the first Tap Structure Period and will be applicable to all the forthcoming Tap Structure Periods unless such details are changed by the AMC at its discretion.

Investors should note that the above mentioned discount (if any) on the ‘Tap Structure Reference Market Price’ may not be a discount to the closing market price of the underlying shares of the constituents of Nifty CPSE Index.

For additional details on the Tap Structure, please refer to Section III (B) (Ongoing Offer Details) of the SID.

Name of the Fund Manager

Vishal Jain has been managing CPSE ETF Scheme since November 2018.

Name of the Trust Company

Reliance Capital Trustee Company Limited

Performance of the Scheme

(a) Absolute Returns for each financial year for the last 5 years

<table>
<thead>
<tr>
<th>Period</th>

Maximum total expense ratio (TER) 0.0095%

The Scheme shall not incur any distribution expenses and no commission shall be paid by this Scheme.

*To the extent incurred on the brokerage and transaction cost over and above 12 bps and 5 bps for cash and derivative market trades respectively.

** As permitted under Regulation 52 of the SEBI Regulations.

Investors should note that the actual annual recurring expenses of the Scheme will be variable in nature and will be subject to changes over time but within the limit prescribed above. For details on the latest actual current expenses charged to the Scheme, the Investor should refer to the website of the Mutual Fund on www.nipponindiamf.com

AMC is free to allocate the above list of expenses within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on charging of any particular expense in the scheme.

In terms of Regulation 52(1) of SEBI (Mutual Funds) Regulations, 1996, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, will necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC’s books. Such expenses shall be paid out of AMC books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower. List of such miscellaneous expenses may be provided by AMFI in consultation with SEBI or as specified/ amended by AMFI/SEBI from time to time.

AMC / Mutual Fund will set apart 0.02% on daily net assets for investor education and awareness initiatives from the maximum recurring expenses provided above.

Goods & Service tax on investment management and advisory fees, to the Scheme will be, in addition to the maximum annual recurring expenses that may be charged to the Scheme.

As permitted under Regulation 52(6A) of SEBI Regulations, brokerage and transaction costs which are incurred for the purpose of execution of trade and is included in the cost of investment, over and above 0.12% in case of cash market transactions and 0.05% in case of derivatives transactions may be charged to the Scheme within the maximum limit of the Total Expense Ratio (TER). Any expenditure in excess of the said prescribed limit (including brokerage and transaction cost, if any) shall be borne by the AMC or by the Trustee or Sponsor.

Subject to the SEBI Regulations and the Offer Document, expenses over and above the prescribed ceiling will be borne by the AMC, Trustees or the Sponsor.

The Trustee / AMC reserves the right to change the expenses of the Scheme as capped above and when it is allowed by SEBI to charge higher expenses under the Scheme.

The Investor should refer to the website of the Fund for the actual fees charged.

Actual expenses (annualised) for the previous financial year i.e. 2018-19 as a percentage of daily net assets was 0.04% (Exclusive of Goods & Service tax on Investment Management and Advisory Fees)
Waiver of Load for Direct Applications

As per the Regulations, no Entry Load shall be charged by the AMC.

Tax Treatment for the Unit Holders

Investors are advised to refer to the details in the Statement of Additional Information (SAI) and also independently refer to their own tax advisor.

Daily Net Asset Value (NAV) Publication

The NAV of the Scheme shall be calculated and announced on all Working Days. The AMC shall update the NAVs on the website of the Mutual Fund (www.nipponindiamf.com/www.nipponindiaETF.com) and on the website of AMFI (www.amfiindia.com) by 11.00 p.m. on every Working Day. Further, AMC shall extend facility of sending latest available NAVs to unitholders through SMS, upon receiving a specific request in this regard.

Since the Scheme is listed on the exchange(s), the listed price would be applicable on the respective Stock Exchange.

Computation of NAV

The Net Asset Value (NAV) of the Units will be determined daily or as prescribed by the Regulations. The NAV shall be calculated in accordance with the following formula, or such other formula as may be prescribed by SEBI from time to time.

\[
\text{NAV} = \frac{\text{Market or fair value of the Scheme’s investments + current assets} - \text{current liabilities and provision (including accrued expenses)}}{\text{No. of Units outstanding under Scheme on the valuation date}}
\]

Example: If the applicable NAV is Rs. 10.00, sales/entry load if any is 2 per cent and the exit/repurchase load is 2 percent then the sales price will be Rs. 10.20 and the repurchase price will be Rs. 9.80.

Unitholders’ Information:

Accounts statement / transaction alert (on each transaction), Annual financial results and Half yearly portfolio disclosure shall be provided to investors by post or published or in such other manner as per SEBI Regulations.

Investors are requested/encouraged to register/update their email id and mobile number of the primary holder with the AMC/RTA through our Designated Investor Service Centres (DISCs) in order to facilitate effective communication.

Employee Unique Identification Number (EUIN) would assist in tackling the problem of mis-selling even if the employee/relationship manager/sales person leave the employment of the distributor.

For further details on the Schemes, investors are advised to refer to the Scheme Information Document and Statement Of Additional Information.

Portfolio Turnover Ratio of the Scheme

Portfolio turnover is the term used by the Fund for measuring the amount of trading that occurs in a Scheme’s portfolio during a specified period of time. The Scheme is an open-ended Scheme. It is therefore expected that there would be a number of Subscriptions and Redemptions on a daily basis. There may be frequent transaction to buy and sell the Securities resulting in increase in transaction cost. At the same time frequent transactions may increase the profits and which can offset the increase in cost. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, the Fund Manager will endeavour to optimize the portfolio turnover to minimize risk and maximize gains while keeping in mind the cost associated with such transaction.

Portfolio Turnover Ratio of the Scheme is 3.48 as on 30/09/2019

Nippon India ETF Bank BeES

Asset Allocation Pattern: Securities covered by the Nifty Bank Index - 95-100%, Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo, cash & cash equivalents, Securitized Debts - 0% to 5%.

Primary Investment Pattern: The investment objective of Nippon India ETF Bank BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a “passive” or indexing approach to try and achieve the Scheme’s investment objective. Unlike other Funds, the Scheme does not try to “beat” the markets it tracks and does not seek temporary defensive positions when markets decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-a-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.

Differentiation: Nippon India ETF Bank BeES endeavors to track and generate similar returns to its benchmark Nifty Bank TRI by investing in its index constituents and money market instruments. The Fund follows a passive strategy of management with endeavor to generate similar returns to its benchmark.

Month End AUM (Rs. Crore) as on September 30, 2019: 6705.30, No. of Folios as on September 30, 2019: 7521

However, the Fund Manager may invest in any other scheme of a mutual fund registered with SEBI, which invest predominantly in the money market securities.) - 0% to 5%. **Primary Investment Pattern:** The investment objective of Nippon India ETF Sensex Next 50 is to provide investment returns closely corresponding to the total returns of the securities as represented by the S&P BSE SENSEX Next 50 Index before expenses, subject to tracking errors. However, there can be no assurance or guarantee that the investment objective of the Scheme will be achieved. **Investment Strategy:** Nippon India ETF Sensex Next 50 is a passively managed exchange traded fund which will employ an investment approach designed to track the performance of S&P BSE SENSEX Next 50 Index. The Scheme seeks to achieve this goal by investing in securities constituting the S&P BSE SENSEX Next 50 Index in same proportion as in the Index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index. The Scheme may also invest in money market instruments to meet the liquidity and expense requirements. **Differentiation:** Nippon India ETF Sensex Next 50 TRI by investing in its index constituents and money market instruments. The Fund follows a passive strategy of management with endeavor to generate similar returns to its benchmark. **Month End AUM (Rs. Crore) as on September 30, 2019:** 12.05, **No. of Folios as on September 30, 2019:** 9
