This Key Information Memorandum (KIM) sets forth the information, which a prospective investor ought to know before investing. For further details of the Scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors’ rights & services, risk factors, penalties & pending litigations, etc., investors should, before investment, refer to the respective Scheme Information Document and Statement of Additional Information available free of cost at any of the Investor Service Centres or distributors or from the website www.nipponindiamf.com / www.nipponindiaetf.com

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996, as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM. This KIM is dated October 18, 2019.

Continuous offer for Units at NAV based prices.
**Investment Objective**
The investment objective of the Scheme is to provide returns that, before expenses, closely correspond to the returns of Securities as represented by Nifty Next 50 Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

**Asset Allocation Pattern of the Scheme**

<table>

<td>Money Market instruments (with maturity not exceeding 91 days), including Tri-Pary Repo, cash &amp; cash equivalents.</td>
<td>Low to Medium</td>
<td>0% - 5%</td>
</tr>
</tbody>
</table>

Subscription cash flow is the Subscription money in transit before deployment and Redemption cash flow is the money kept aside for meeting Redemption.

**Investment Strategy**
The Scheme will invest at least 95% of its total assets in the stocks of its underlying index in the same proportion as in the index.

**Risk Profile of the Scheme & Risk Mitigation**

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for detailed risk factors before investment.

The Scheme is further subjected to risks which are briefly enumerated below:

A. **Risks pertaining to the Scheme**

1. **Market Risk**: The NAV of the Scheme will react to the Securities market movements.
2. **Market Trading Risks**: There can be no assurance that an active secondary market will develop or be maintained. Trading in the Units of the Scheme may be halted because of market conditions. Units of the Scheme may trade in prices which can be above or below their NAV.
3. **Volatility Risk**: The Securities markets are volatile and the value of Securities correlated with the equity markets may fluctuate dramatically from day to day.
4. **Asset Class Risk**: The returns from the types of Securities in which the Scheme invests may underperform the various general Securities markets or different asset classes.
5. **Investment Risk**: The Scheme follows a passive investment technique and shall only invest in Securities as mentioned in the asset allocation table irrespective of the market conditions.
6. **Tracking Error Risk**: The Scheme will be subject to Tracking Error risk. The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the underlying index and regulatory restrictions, which may result in Tracking Error with the underlying index. The Scheme’s returns may therefore deviate from those of the underlying index. “Tracking Error” is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

7. **Risk pertaining to Investments in Derivative Instruments**: Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor.

8. **Risk Pertaining to Investments in Foreign Securities**: The risk of investing in foreign Securities carries exchange rate risks related to depreciation of foreign currency and country risks.

9. **Risks pertaining to Investments in Overseas Financial Assets**: 
   - **Currency Risk**: To the extent that the assets of the Scheme are invested in Securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distribution and income may be adversely affected by changes in the exchange rates of respective foreign currencies relative to the Indian Rupee.
   - **Limits of Investment in Foreign Securities**: The Scheme is subject to limits regarding amount to be invested in foreign Securities. As and when the investment limits are breached, the Subscriptions would be stopped till such time that the assets under management in the Scheme would decrease from the threshold limit as mentioned in the SEBI (Mutual Funds) Regulations, 1996 as amended from time to time (“Regulations”).
   - **Restrictions on Foreign Investment**: Some countries prohibit or impose substantial restrictions on investments by foreign entities.
   - **Risk Pertaining to Overseas Stock Exchanges**: As the Scheme would invest in overseas Securities, it would be subject to market trading risk, liquidity risk and volatility risk pertaining to overseas stock exchange where such Securities are traded.
   - **Settlement Risks**: The Scheme will be exposed to settlement risk, as different countries have different settlement periods.
   - **Investments in Overseas Mutual Fund Scheme**: The Scheme intends to invest in the Units of overseas mutual fund schemes including Exchange Traded Funds. Hence scheme specific risk factors of such underlying schemes will be applicable.
   - **Redemption by Exchange of Portfolio Deposit**: In case a Unit holder wishes to Redeem in Creation Unit size, the Units of the Scheme by exchange of Portfolio Deposit, then such Unit holder is required to have a Securities account, etc. in its respective jurisdiction which permits such Unit holder to hold such shares and which will enable the AMC to transfer the constituents of the underlying index.

10. **Risk pertaining to passive investment**: The Scheme is not actively managed. The Scheme which is linked to the underlying index may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in in Securities which are constituents of its underlying index regardless of its investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

   **Risk Mitigation for the Scheme**: The Fund will follow full replication strategy and would try and maintain minimum cash at all points of time. Further, the rebalance of the index linked ETFs would be done as per notification received from the index providers. In general the scope of Tracking Error in an ETF is low due to its structure.

B. **Risks Associated with Investing in Debt Securities**

1. **Interest Rate Risk**: The Scheme’s NAV will react to interest rate movements. This risk shall be mitigated by investment in short term Securities as they are less volatile to interest rate movements. In case of Tri-Pary Repo, the rate of interest, from time to time, depends upon the number of borrowers at that point of time and the amount to be borrowed by such borrowers.

2. **Reinvestment Risk**: Investments in debt Securities may carry reinvestment risk as interest rates prevailing in the market may differ from the original coupon. This risk shall be mitigated by investment in short term Securities.
3. Spread Risk: Investments in corporate bonds are exposed to the risk of spread widening between corporate debt Securities and Gilts. This risk shall be partly mitigated by investment in short term Securities. The spread between Money Market Instruments and Gilts is relatively small for short maturities.

4. Liquidity or Marketability Risk: This refers to the ease at which a Security can be sold at or near its true value. As liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Fund for Redemption of Units may be significant in the event of an inordinately large number of Redemption requests or restructuring of the Scheme. This risk shall be mitigated by maintaining adequate investment in liquid Money Market Instruments such as Tri-Pary Repo and having staggered maturities of fixed term instruments.

5. Credit Risk or Default Risk: Credit Risk is the risk that the issuer of a Security may default on interest payments or even paying back the principal amount on maturity. (i.e. the issuer may be unable to make timely principal and interest payments on the Security). This risk shall be mitigated by investing in rated papers (preferably P1+ or equivalent) and by adequate issuer diversification.

Investors are requested to read the detailed sections on 'Standard Risk Factors' and the 'Scheme Specific Risk Factors' applicable to the Scheme provided in the SID carefully before making investments in the Scheme.

### Plans and Options

The Scheme offers only Growth Option. Unit holders to note that the Trustee may still declare Dividend from time to time in accordance with the Dividend Policy.

### Applicable NAV for Subscriptions / Redemptions

Investors / Unit holders to note that the below mentioned Cut-off time are not applicable to transactions undertaken on a recognised stock exchange and are only applicable to transactions undertaken at the Official Points of Acceptance.

The Cut-off time for receipt of valid application for Subscriptions and Redemptions is 3.00 p.m. However, as the Scheme is an Exchange Traded Fund, the Subscriptions and Redemptions of Units would be based on the Portfolio Deposit and Cash Component as defined by the Fund for that respective Working Day. Creation of Units in such Schemes will be done only after full sighting of cash / portfolio deposit in such Scheme’s accounts.

### Minimum Amount for Purchase / Redemption

Minimum number of Units (Creation Units) - 10,000 Units and in multiples thereof

On the Exchange

The Units of the Scheme can be Purchased/ sold in minimum lot of 1 Unit and in multiples thereof.

### Dispatch of Repurchase (Redemption) Request

For Redemption request received directly with the Fund

The Redemption or repurchase proceeds shall be dispatched to the Unit holders within 10 Working Days from the date of Redemption or repurchase.

Payment of proceeds

The Fund will dispatch the Redemption proceeds within 10 Working Days from the date of acceptance of the Redemption request.

### Benchmark Index

Nifty Next 50 TRI

### Dividend Policy

The Trustee may declare Dividend to the Unit holders under the Scheme subject to the availability of distributable surplus and the actual distribution of Dividends and the frequency of distribution will be entirely at the discretion of the Trustee. Such Dividend will be payable to the Unit holders whose names appear on the register of Unit holders on the record date as fixed for the Scheme. The Dividend declared will be paid net of tax deducted at source, wherever applicable, to the Unit holders within 30 days from the declaration of the Dividend.

The Scheme will follow the requirements stipulated in the listing agreement for declaration of Dividend.

There is no assurance or guarantee to the Unit holders as to the rate of Dividend distribution nor that the Dividend will be paid regularly. If the Fund declares Dividend, the NAV of the Scheme will stand reduced by the amount of Dividend and Dividend distribution tax (if applicable) paid. All the Dividend payments shall be in accordance and compliance with SEBI & NSE Regulations, as applicable from time to time.

Procedure for distribution of Dividend:

The Dividend proceeds may be paid by way of cheques, Dividend warrants / direct credit / National Electronic Funds Transfer ("NEFT") / Real Time Gross Settlement ("RTGS") / Electronic Clearing System ("ECS") or any other manner to the Unit holder’s bank account as specified in the Registrar’s / Depository’s records. The AMC, at its discretion at a later date, may choose to alter or add other modes of payment.

Please refer to the Statement of Additional Information for details on unclaimed Redemptions and Dividends.

### Name of the Fund Manager

**Vishal Jain** has been managing the Scheme since November 2018.

### Name of the Trustee Company

Reliance Capital Trustee Company Limited

</tr>
</tbody>
</table>

Past performance may or may not be sustained in future and should not be used as a basis for comparison with other investments.

Returns since inception are calculated from the date of allotment i.e. February 21, 2003. Dividends (if any) are assumed to be reinvested at the prevailing NAV. Distribution taxes (if any) are excluded while calculating the returns. After payment of Dividend, NAV will fall to the extent of the payout and statutory levy (if applicable).

**Note:** TRI - Total Returns Index reflects the returns on the index arising from (a) constituent stock price movements and (b) dividend receipts from constituent index stocks. For better understanding of investors additional details about TR index has been provided in the performance section.

Expenses of the Scheme

(i) Load Structure

**Entry Load:** Nil

In accordance with the requirements specified by the SEBI circular no. SEBI/IMD/CIR No.4/168230/09 dated June 30, 2009 no entry load will be charged for purchase / additional purchase / switch-in accepted by the Fund with effect from August 01, 2009. Similarly, no entry load will be charged with respect to applications for registrations under systematic investment plans/ systematic transfer plans accepted by the Fund with effect from August 01, 2009.

**Exit Load:** Nil

Nil in case of redemption/switch out after completion of 1 year from the date of allotment. W.E.F. October 01, 2012, Exit Load if charged to the scheme shall be credited to the scheme immediately net of Goods and Service Tax, if any. Pursuant to SEBI Circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009, upfront commission shall be paid directly by the investor to the AMFI Registered Distributor based on the investor’s assessment of various factors including the services rendered by the AMFI Registered Distributor.

(ii) Recurring expenses

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents’ Fee, marketing and selling costs etc. as given in the table below:

The AMC would update the current expense ratios on the website of the mutual fund at least three working days prior to the effective date of the change. Further Actual Expense ratio will be disclosed at the following link https://www.nipponindiamf.com/investor-services/downloads/total-expense-ratio-of-mutual-fund-schemes

</tr>
</tbody>
</table>

Note: Please note that the above is an approximate illustration of the impact of expense ratio on the returns, where the Gross NAV has been simply reduced to the extent of the expenses. In reality, the actual impact would vary depending on the path of returns over the period of consideration. Expenses will be charged on daily net assets.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Goods & Service tax on investment management and advisory fees, to the Scheme will be, in addition to the maximum annual recurring expenses that may be charged to the Scheme.

Goods & Service Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the SEBI Regulations.

Mutual Funds/AMCs will annually set apart at least 2 basis points on daily net assets within the maximum limit as per regulation 52 of the SEBI Regulations for investor education and awareness initiatives.

However, no Investment Management fees would be charged on RNAM’s investment in the Scheme. The Trustee Company, shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of NIMF on 1st April each year or a sum of Rs.5,00,000/- whichever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

The total expenses of the ETF scheme including the investment management and advisory fee shall not exceed One percent (1%) of the daily net assets and such other limits as stated in Regulation 52(6).

AMC is free to allocate the above list of expenses within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on charging of any particular expense in the scheme.

In terms of Regulation 52(1) of SEBI (Mutual Funds) Regulations, 1996, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, will necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC’s books. Such expenses shall be paid out of AMC books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower. List of such miscellaneous expenses may be provided by AMFI in consultation with SEBI or as specified/amended by AMFI/SEBI from time to time.

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per new sub regulation 6A, namely-

(a) Brokerage and Transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12 per cent of the value of trades in case of cash market transactions and 0.05 per cent of the value of trades in case of derivatives transactions. Payment towards brokerage and transaction costs incurred for the execution of trades, over and above the said 0.12 per cent for cash market transactions and 0.05 per cent for derivative transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction costs, if any) shall be borne by the AMC or by the Trustee or Sponsors.

(b) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such specified investors and cities as specified by the Board from time to time are at least -

(i) 30 per cent of gross new inflows in the scheme, or;

(ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI. Expenses on an ongoing basis will not exceed the percentage of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

The recurring expenses incurred in excess of the limits specified by SEBI (MF) Regulations will be borne by the AMC or by the Trustee or the Sponsor.

Actual Expenses for the previous financial year (2018-2019) (as % of daily net assets) (Annualised): 0.23%

<table>
<thead>
<tr>
<th>Waiver of Load for Direct Applications</th>
<th>As per the Regulations, no Entry Load shall be charged by the AMC.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tax Treatment for the Unit holders</td>
<td>Investors are advised to refer to the details in the Statement of Additional Information (SAI) and also independently refer to their own tax advisor.</td>
</tr>
<tr>
<td>Daily Net Asset Value (NAV) Publication</td>
<td>The NAV of the Scheme shall be calculated and announced on all Working Days. The AMC shall update the NAVs on the website of the Mutual Fund (<a href="http://www.nipponindiamf.com/www.nipponindiaetf.com">www.nipponindiamf.com/www.nipponindiaetf.com</a>) and on the website of AMFI (<a href="http://www.amfindia.com">www.amfindia.com</a>) by 11.00 p.m. on every Working Day. Further, AMC shall extend facility of sending latest available NAVs to unitholders through SMS, upon receiving a specific request in this regard. The Scheme is listed on the exchange(s), the listed price would be applicable on the respective Stock Exchange.</td>
</tr>
</tbody>
</table>
The Net Asset Value (NAV) of the Units will be determined daily or as prescribed by the Regulations. The NAV shall be calculated in accordance with the following formula, or such other formula as may be prescribed by SEBI from time to time.

\[ \text{NAV} = \frac{\text{Market/Fair Value of Scheme's Investments} + \text{Receivables} + \text{Accrued Income} + \text{Other Assets} - \text{Accrued Expenses} - \text{Payables} - \text{Other Liabilities}}{\text{No. of Units outstanding under Scheme on the valuation date}} \]

**Example:** If the applicable NAV is Rs. 10.00, sales/entry load if any is 2 per cent and the exit/repurchase load is 2 percent then the sales price will be Rs. 10.20 and the repurchase price will be Rs. 9.80.

**For Investor Grievances please contact**

Karvy Fintech Private Limited: Karvy Selenium Tower B, Plot number 31 & 32, Financial District, Nanakramguda, Serilingampally Mandal, Hyderabad, Telengana - 500032, India

Nippon India Mutual Fund: Reliance Centre, 7th Floor, Off Western Express Highway, Santacruz (East), Mumbai - 400 055. Tel No. - 022-4303 1000, Fax No. - 022-4303 7662, Email - customercare@nipponindiamf.com

**Unitholders’ Information**

Accounts statement/transaction alert (on each transaction), Annual financial results and Half yearly portfolio disclosure shall be provided to investors by post or published or in such other manner as per SEBI Regulations.

Investors are requested/encouraged to register/update their email id and mobile number of the primary holder with the AMC/RTA through our Designated Investor Service Centres (DISCs) in order to facilitate effective communication.

Employee Unique Identification Number (EUIN) would assist in tackling the problem of misselling even if the employee/relationship manager/sales person leave the employment of the distributor.

For further details on the Schemes, investors are advised to refer to the Scheme Information Document and Statement Of Additional Information.

**Portfolio Turnover Ratio of the Scheme**

Portfolio turnover is the term used by the Mutual Fund for measuring the amount of trading that occurs in a Scheme’s portfolio during a specified period of time. The Scheme is an open ended Scheme. It is therefore expected that there would be a number of Subscriptions and Redemptions on a daily basis. There may be frequent transaction to buy and sell the Securities resulting in increase in transaction cost. At the same time frequent transactions may increase the profits and which can offset the increase in cost. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, the Fund Manager will endeavour to optimize the portfolio turnover to minimize risk and maximize gains while keeping in mind the cost associated with such transaction.

Portfolio Turnover Ratio of the Scheme is 0.62 as on 30/09/2019.

**Portfolio of the Scheme**

**HOW THE SCHEME IS DIFFERENT FROM THE EXISTING OPEN ENDED EXCHANGE TRADED FUNDS OF THE MUTUAL FUND**

Nippon India ETF Bank BeES

**Asset Allocation Pattern:** Securities covered by the Nifty Bank Index - 95-100%, Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo, cash & cash equivalents - 0-5% **Primary Investment Pattern:** The investment objective of Nippon India ETF Bank BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a “passive” or indexing approach to try and achieve the Scheme’s investment objective. Unlike other Funds, the Scheme does not try to “beat” the markets it tracks and does not seek temporary defensive positions when markets decline or appear over valued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objec-
Nippon India ETF Gold BeES

Asset Allocation Pattern: Physical Gold or Gold related Instruments as permitted by SEBI from time to time - 95% to 100%, Cash & Cash equivalents - 0% to 5%

Primary Investment Pattern: The investment objective of Nippon India ETF Gold BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty 50 Index by investing in the Securities in the same proportion as in the Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a "passive" or indexing approach to try and achieve the Scheme's investment objective.

Nippon India ETF Nifty BeES

Asset Allocation Pattern: Securities constituting Nifty 50 Index - 95% to 100%, Money Market Instruments (with maturity not exceeding 91 days) - 0% to 5%

Primary Investment Pattern: The investment objective of Nippon India ETF Nifty BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty 50 Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a "passive" or indexing approach to try and achieve the Scheme's investment objective. Unlike other Funds, the Scheme does not use any judgment about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.

Nippon India ETF Nifty 50 TRI

Asset Allocation Pattern: Securities represented by Nifty Next 50 Index - 95% to 100%, Money Market Instruments (with maturity not exceeding 91 days) - 0% to 5%

Primary Investment Pattern: The investment objective of Nippon India ETF Nifty 50 TRI is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty Next 50 Index by investing in the Securities in the same proportion as in the Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a "passive" or indexing approach to try and achieve the Scheme's investment objective. Unlike other Funds, the Scheme does not use any judgment about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.

Nippon India ETF Nifty PSU Bank BeES

Asset Allocation Pattern: Securities covered by the Nifty PSU Bank Index - 95% to 100%, Money Market Instruments (with maturity not exceeding 91 days) - 0% to 5%

Primary Investment Pattern: The investment objective of Nippon India ETF Nifty PSU Bank BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty PSU Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a "passive" or indexing approach to try and achieve the Scheme's investment objective. Unlike other Funds, the Scheme does not use any judgment about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.

Nippon India ETF Nifty Next 50 TRI

Asset Allocation Pattern: Securities represented by the Nifty Next 50 Index - 95% to 100%, Money Market Instruments (with maturity not exceeding 91 days) - 0% to 5%

Primary Investment Pattern: The investment objective of Nippon India ETF Nifty Next 50 TRI is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty Next 50 Index by investing in the Securities in the same proportion as in the Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a "passive" or indexing approach to try and achieve the Scheme's investment objective. Unlike other Funds, the Scheme does not use any judgment about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.

Nippon India ETF PSU Bank BeES

Asset Allocation Pattern: Securities covered by the Nifty PSU Bank Index - 95% to 100%, Money Market Instruments (with maturity not exceeding 91 days) - 0% to 5%

Primary Investment Pattern: The investment objective of Nippon India ETF PSU Bank BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty PSU Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a "passive" or indexing approach to try and achieve the Scheme's investment objective. Unlike other Funds, the Scheme does not use any judgment about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.

Nippon India ETF Shariah BeES

Asset Allocation Pattern: Securities covered by the Nifty 50 Shariah Index - 95% to 100%, Cash - 0% to 5%

Primary Investment Pattern: The investment objective of Nippon India ETF Shariah BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty 50 Shariah Index by investing in Securities which are constituents of the Nifty 50 Shariah Index in the same proportion as in the Index. Investors to note that Nippon India ETF Shariah BeES is not a Shariah compliant scheme. There is no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a "passive" or indexing approach to try and achieve the Scheme's investment objective. Unlike other Funds, the Scheme does not use any judgment about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.
particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme employs a passive investment approach designed to track the performance of Nifty India Consumption Index in same proportion as in the Index. However, performance of the Scheme may differ from that of the underlying index due to tracking error. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The Scheme employs a passive investment approach designed to track the performance of Nifty India Consumption Index in same proportion as in the Index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index. The Scheme may also invest in money market instruments to meet the liquidity and expense requirements. Differentiation: Nippon India ETF Long Term Gilt endeavors to track and provide similar returns to its benchmark- Nifty 100 TRI by investing in its index constituents and money market instruments.
