This Key Information Memorandum (KIM) sets forth the information, which a prospective investor ought to know before investing. For further details of the Scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors’ rights & services, risk factors, penalties & pending litigations, etc., investors should, before investment, refer to the respective Scheme Information Document and Statement of Additional Information available free of cost at any of the Investor Service Centres or distributors or from the website www.nipponindiamf.com / www.nipponindiaetf.com

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996, as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM. This KIM is dated October 18, 2019.
The investment objective of the Scheme is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty PSU Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

### Asset Allocation Pattern of the Scheme

<table>

<tbody>
<tr>
<td>Securities covered by the Nifty PSU Bank Index</td>
<td>Medium to High</td>
<td>95% - 100%</td>
</tr>
<tr>
<td>Money Market Instruments (with maturity not exceeding 91 days), including Tri-party repo, cash &amp; cash equivalents.</td>
<td>Low to Medium</td>
<td>0% - 5%</td>
</tr>
</tbody>
</table>

The notional exposure of the Scheme in Derivative instruments shall be restricted to 10% of the net assets of the Scheme.

### Investment Strategy

The Scheme will invest at least 95% of its total assets in the stocks of its underlying index in the same proportion as in the index.

### Risk Profile of the Scheme & Risk Mitigation

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for detailed risk factors before investment.

The Scheme is further subjected to risks which are briefly enumerated below:

#### A. Risks pertaining to the Scheme

1. **Market Risk**: The NAV of the Scheme will react to the Securities market movements.
2. **Market Trading Risks**: There can be no assurance that an active secondary market will develop or be maintained. Trading in the Units of the Scheme may be halted because of market conditions. Units of the Scheme may trade in prices which can be above or below their NAV.
3. **Volatility Risk**: The Securities markets are volatile and the value of Securities correlated with the equity markets may fluctuate dramatically from day to day.
4. **Asset Class Risk**: The returns from the types of Securities in which the Scheme invests may underperform the various general Securities markets or different asset classes.
5. **Investment Risk**: The Scheme follows a passive investment technique and shall only invest in Securities as mentioned in the asset allocation table irrespective of the market conditions.
6. **Tracking Error Risk**: The Scheme will be subject to Tracking Error risk. The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the underlying index and regulatory restrictions, which may result in Tracking Error with the underlying index. The Scheme’s returns may therefore deviate from those of the underlying index. “Tracking Error” is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.
7. **Risk Pertaining to Investments in Derivative Instruments**: Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the Investor.
8. **Risk Pertaining to Investments in Foreign Securities**: The risk of investing in Foreign Securities carries exchange rate risks related to depreciation of foreign currency and country risks.
9. **Risks pertaining to Investments in Overseas Financial Assets**:
   (a) **Currency Risk**: To the extent that the assets of the Scheme are invested in Securities denominated in foreign currencies, the Indian rupee equivalent of the net assets, distribution and income may be adversely affected by changes in the exchange rates of respective foreign currencies relative to the Indian Rupee.
   (b) **Limits of Investment in Foreign Securities**: The Scheme is subject to limits regarding amount to be invested in Foreign Securities. As and when the investment limits are breached, the Subscriptions would be stopped till such time that the assets under management in the Scheme would decrease from the threshold limit as mentioned in the SEBI (Mutual Funds) Regulations, 1996 as amended from time to time (“Regulations”).
   (c) **Restrictions on Foreign Investment**: Some countries prohibit or impose substantial restrictions on investments by foreign entities.
   (d) **Risk Pertaining to Overseas Stock Exchanges**: As the Scheme would invest in overseas Securities, it would be subject to market trading risk, liquidity risk and volatility risk pertaining to overseas stock exchange where such Securities are traded.
   (e) **Settlement Risks**: The Scheme will be exposed to settlement risk, as different countries have different settlement periods.
   (f) **Investments in Overseas Mutual Fund Scheme**: The Scheme intends to invest in the Units of overseas mutual fund schemes including Exchange Traded Funds. Hence scheme specific risk factors of such underlying schemes will be applicable.
   (g) **Redemption by Exchange of Portfolio Deposit**: In case a Unit holder wishes to Redeem in Creation Unit size, the Units of the Scheme by exchange of Portfolio Deposit, then such Unit holder is required to have a Securities account, etc. in its respective jurisdiction which permits such Unit holder to hold such shares and which will enable the AMC to transfer the constituents of the underlying index.
10. **Risk pertaining to passive investment**: The Scheme is not actively managed. The Scheme which is linked to the underlying index may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of its investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

#### B. Additional Risk pertaining to the Scheme

**Sector Risk**: As the Scheme is linked to a particular index which pertains to a particular sector, the Investment Manager would have to invest in the companies comprising such index whereby there is no diversification.

**Risk Mitigation**: The Fund will follow full replication strategy and would try and maintain minimum cash at all points of time. Further, the rebalance of the index linked ETF would be done as per notification received from the index providers. In general the scope of Tracking Error in an ETF is low due to its structure.
The Scheme offers only Growth Option. Unit holders to note that the Trustee may still declare Dividend from time to time in accordance 

FY 15
Nifty PSU Bank TRI

Mehul Dama has been managing the Scheme since Nov 2018.

FY 16
The Trustee may declare Dividend to the Unit holders under the Scheme subject to the availability of distributable surplus and the actual

(a) Absolute Returns for each financial year for the last 5 years

(b) Compounded Annualised Returns (%) as on 30/09/2019

</tr>
</tbody>
</table>
Past performance may or may not be sustained in future and should not be used as a basis for comparison with other investments. Returns since inception are calculated from the date of allotment i.e. October 25, 2007. Dividends (if any) are assumed to be reinvested at the prevailing NAV, wherever applicable. Distribution taxes (if any) are excluded while calculating the returns. After payment of Dividend, NAV will fall to the extent of the payout and statutory levy (if applicable).

**Note:** TRI - Total Returns Index reflects the returns on the index arising from (a) constituent stock price movements and (b) dividend receipts from constituent index stocks. For better understanding of investors additional details about TR Index has been provided in the performance section.

### Expenses of the Scheme

#### (i) Load Structure

<table>
<thead>
<tr>
<th>Load Structure</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Entry Load:</strong> Nil</td>
<td></td>
</tr>
<tr>
<td><strong>Exit Load:</strong> Nil</td>
<td></td>
</tr>
</tbody>
</table>

Load amounts are variable and are subject to change from time to time and the Investor is requested to check the prevailing Load structure of the Scheme before investing. For the current applicable structure, please refer to the website of the Mutual Fund, www.nipponindiamf.com / www.nipponindiaetf.com or call at toll free no. 1800 300 11 111 or your Distributor. If there is no Entry/Exit Load for creation/Redemption of the Units of the Scheme in Creation Unit size. However, during the process of creation/Redemption there will be transaction costs, other incidental expenses and equalization of Dividend and this will form part of the Cash Component. Please refer the Scheme Information Document for details.

Any change in the Load structure shall apply on a prospective basis and in no case the same would affect the existing Investors adversely. The Investor is requested to check the prevailing Load structure of the Scheme before investing. For any change in Load structure, AMC will issue the notice and display it on the AMC Website / Investor Service Centres.

The Mutual Fund may charge Load within the stipulated limit of 7% and without any discrimination in favor of any specific group of Unit holders. The AMC will ensure that the Redemption Price will not be lower than 93% of the NAV and difference between the Redemption Price and Purchase Price will not exceed 7% calculated on the Purchase Price.

#### (ii) Recurring expenses

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents’ fee, marketing and selling costs etc. as given in the table below:

The AMC would update the current expense ratios on the website of the mutual fund at least three working days prior to the effective date of the change. Further Actual Expense ratio will be disclosed at the following link https://www.nipponindiamf.com/investor-services/downloads/total-expense-ratio-of-mutual-fund-schemes

<td>Upto 0.30%</td>
</tr>
</tbody>
</table>

The Scheme shall not incur any distribution expenses and no commission shall be paid by this scheme. (# Expenses including listing fees charged under the said parameters shall be in line with the Regulation 52 of SEBI (MF) Regulations or such other basis as specified by SEBI from time to time.)

### Illustration – Impact of Expense Ratio on the Returns

| Amount Invested | 100,000.00 |
| NAV at the time of Investment | 10.00 |
| No of Units | 10,000.00 |
| Gross NAV at end of 1 year (assuming 12% annual return) | 11.20 |
| Expenses (assuming 1% Expense Ratio on average of opening and closing NAV) | 0.11 |
| Actual NAV at end of 1 year post expenses (assuming Expense Ratio as above) | 11.09 |
| Value of Investment at end of 1 year (Before Expenses) | 112,000.00 |
| Value of Investment at end of 1 year (After Expenses) | 110,940.00 |
Note: Please note that the above is an approximate illustration of the impact of expense ratio on the returns, where the Gross NAV has been simply reduced to the extent of the expenses. In reality, the actual impact would vary depending on the path of returns over the period of consideration. Expenses will be charged on daily net assets.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Goods & Service tax on investment management and advisory fees, to the Scheme will be, in addition to the maximum annual recurring expenses that may be charged to the Scheme.

Goods & Service Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the SEBI Regulations.

Mutual Funds/AMCs will annually set apart at least 2 basis points on daily net assets within the maximum limit as per regulation 52 of the SEBI Regulations for investor education and awareness initiatives.

However, no Investment Management fees would be charged on RNAM’s investment in the Scheme. The Trustee Company, shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of NIMF on 1st April each year or a sum of Rs.5,00,000/- whichever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

The total expenses of the ETF scheme including the investment management and advisory fee shall not exceed One percent (1%) of the daily net assets and such other limits as stated in Regulation 52(6).

AMC is free to allocate the above list of expenses within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on charging of any particular expense in the scheme.

In terms of Regulation 52(1) of SEBI (Mutual Funds) Regulations, 1996, all scheme related expenses including commission paid to distributers, by whatever name it may be called and in whatever manner it may be paid, will necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC’s books. Such expenses shall be paid out of AMC books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower. List of such miscellaneous expenses may be provided by AMFI in consultation with SEBI or as specified/amsed by AMFI/SEBI from time to time.

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per new sub-regulation 6A, namely:

(a) Brokerage and Transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12 per cent of the value of trades in case of cash market transactions and 0.05 per cent of the value of trades in case of derivatives transactions. Payment towards brokerage and transaction expenses incurred for the execution of trades, over and above the said 0.12 per cent for cash market transactions and 0.05 per cent for derivative transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction costs, if any) shall be borne by the AMC or by the Trustee or Sponsors.

(b) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such specified investors and cities as specified by the Board from time to time are at least:

(i) 30 per cent of gross new inflows in the scheme, or;
(ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI. Expenses on an ongoing basis will not exceed the percentage of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

The recurring expenses incurred in excess of the limits specified by SEBI (MF) Regulations will be borne by the AMC or by the Trustee or the Sponsor.

Actual Expenses for the previous financial year (2018-2019) (as % of daily net assets) (Annualised): 0.54%
The investment objective of Nippon India ETF Bank BeES is to provide returns that, before expenses, closely correspond to the returns provided by the Nifty Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

**Primary Investment Pattern:** The investment objective of Nippon India ETF Bank BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

**Investment Strategy:** The AMC uses a “passive” or indexing approach to try and achieve the Scheme’s investment objective. Unlike other Funds, the Scheme does not try to “beat” the markets it tracks and does not seek temporary defensive positions when markets decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/under performance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.

**Differentiation:** Nippon India ETF Bank BeES endeavors to track and generate returns similar to its benchmark Nifty Bank TRI by investing in its index constituents and money market instruments. The Fund follows a passive strategy of management with endeavor to generate similar returns to its benchmark. *Month End AUM (Rs. Crore) as on September 30, 2019: 6705.30, No. of Folios as on September 30, 2019: 7521*

**Portfolio Turnover Ratio of the Scheme:**

Portfolio turnover is the term used by the Mutual Fund for measuring the amount of trading that occurs in a Scheme’s portfolio during a specified period of time. The Scheme is an open-ended Scheme. It is therefore expected that there would be a number of Subscriptions and Redemptions on a daily basis. There may be frequent transaction to buy and sell the Securities resulting in increase in transaction cost. At the same time frequent transactions may increase the profits and which can offset the increase in cost. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, the Fund Manager will endeavour to optimize the portfolio turnover to minimize risk and maximize gains while keeping in mind the cost associated with such transaction. *Portfolio Turnover Ratio of the Scheme is 1.88 as on 30/09/2019.*

**How the Scheme is different from the Existing Open Ended Exchange Traded Funds of the Mutual Fund**

**Nippon India ETF Bank BeES**

Asset Allocation Pattern: Securities covered by the Nifty Bank Index - 95-100%; Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo, cash & cash equivalents - 0-5%

**Primary Investment Pattern:** The investment objective of Nippon India ETF Bank BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

**Investment Strategy:** The AMC uses a “passive” or indexing approach to try and achieve the Scheme’s investment objective. Unlike other Funds, the Scheme does not try to “beat” the markets it tracks and does not seek temporary defensive positions when markets decline or appear overvalued. The AMC makes no judgments about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/under performance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.

**Differentiation:** Nippon India ETF Bank BeES endeavors to track and generate returns similar to its benchmark Nifty Bank TRI by investing in its index constituents and money market instruments. The Fund follows a passive strategy of management with endeavor to generate similar returns to its benchmark. *Month End AUM (Rs. Crore) as on September 30, 2019: 6705.30, No. of Folios as on September 30, 2019: 7521*

**Nippon India ETF Gold BeES**

Asset Allocation Pattern: Physical Gold or Gold related Instruments as permitted by SEBI from time to time: 95-100%; Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo, cash & cash equivalents, Securitized Debts - 0-5% (*Investments in securitised debts can be made by the Scheme upto 5% of the net assets).

**Primary Investment Pattern:** The investment objective of Nippon India ETF Gold BeES is to provide returns that, before expenses, closely correspond to the Domestic price of Gold through physical gold. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

**Investment Strategy:** The AMC uses a “passive” or indexing approach to try and achieve the Scheme’s investment objective. Unlike other Funds, the Scheme does not try to “beat” the markets it tracks and does not seek temporary defensive positions when markets decline or appear overvalued. The AMC makes no judgments about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/under performance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements.

**Differentiation:** Nippon India ETF Gold BeES endeavors to track and provide similar returns to its benchmark: the domestic prices of gold through investment in physical gold and money market instruments. The Fund follows a passive investment strategy and endeavors to generate returns similar to its benchmark. The Fund is benchmarked to physical price of gold. *Month End AUM (Rs. Crore) as on September 30, 2019: 2729.17, No. of Folios as on September 30, 2019: 143693*
Nippon India ETF Nifty BeES
Asset Allocation Pattern: Securities constituting Nifty 50 Index - 95% to 100%, Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo, cash & cash equivalents - 0% to 5%. The fund follows a passive strategy of management with endeavor to generate similar returns to its benchmark. Month End AUM (Rs. Crore) as on September 30, 2019: 1237.65, No. of Folios as on September 30, 2019: 32862

Nippon India ETF PSU Bank BeES
Asset Allocation Pattern: Securities covered by Nifty PSU Bank Index - 95% to 100%, Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo, cash & cash equivalents - 0% to 5%. Primary Investment Pattern: The investment objective of Nippon India ETF PSU Bank BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty PSU Bank Index. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a “passive” or indexing approach to try and achieve the Scheme’s investment objective. Unlike other Funds, the Scheme does not try to “beat” the markets it tracks and does not seek temporary defensive positions when markets decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements. Differentiation: Nippon India ETF PSU Bank BeES endeavors to track and provide similar returns to its benchmark- Nifty PSU Bank TRI by investing in its index constituents and money market instruments. The fund follows a passive strategy of management with endeavor to generate similar returns to its benchmark. Month End AUM (Rs. Crore) as on September 30, 2019: 93.93, No. of Folios as on September 30, 2019: 2560

Nippon India ETF Shariah BeES
Asset Allocation Pattern: Securities covered by the Nifty50 Shariah Index - 95% to 100%, Cash - 0% to 5%. Primary Investment Pattern: The investment objective of Nippon India ETF Shariah BeES is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty50 Shariah Index by investing in Securities which are constituents of the Nifty50 Shariah Index in the same proportion as in the index. Investors to note that Nippon India ETF Shariah BeES is not a Shariah compliant scheme. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved. Investment Strategy: The AMC uses a “passive” or indexing approach to try and achieve the Scheme’s investment objective. Unlike other Funds, the Scheme does not try to “beat” the markets it tracks and does not seek temporary defensive positions when markets decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its investment objective and asset allocation pattern, except to meet its liquidity requirements. 7. TRANSACTION CHARGES

1) In accordance with SEBI Circular No. IMD/DF/131 dated August 22, 2011, with effect from October 1, 2011, in accordance with SEBI Circular No. IMD/DF/9/2011 dated May 19, 2011, in accordance with SEBI Circular No. IMD/DF/10/2011 dated October 12, 2011, and Circular No. 39/ 2013-14 dated August 23, 2013, the AMC (Reliance Nippon Life Asset Management Limited (RNAM)/NIMF) shall deduct a Transaction Charge on per purchase /subscription of ₹ 100/- and above and above for any subsequent transaction charge on per purchase /subscription of ₹ 100/- and above. The Transaction charge shall be deducted from the subscription amount and paid to the distributor/agent, as the case may be, and the balance shall be invested. The statement of account shall clearly state that the net investment as gross subscription amount less transaction charge and give the number of units allotted against the net investment.

In case of Investments through Systematic Investment Plan (SIP) the transaction charges shall be deducted only if the total commitment through SIP (i.e. amount per SIP installment x no. of instalments) amounts to ₹ 10,000/- and above. In such cases, the transaction charges shall be deducted in 3-4 instalments.

Transaction charges shall not be deducted if:

- For the new investor a transaction charge of ₹ 150/- shall be levied for per purchase /subscription of ₹ 100/- and above.
- For the existing investor a transaction charge of ₹ 100/- shall be levied for per purchase /subscription of ₹ 100/- and above.
- The minimum transaction charge shall be deducted from the subscription amount and paid to the distributor/agent, as the case may be, and the balance shall be invested. The statement of account shall clearly state that the amount paid as transaction charge.

2) Transaction charge shall be calculated on the basis of the unit price of the scheme on the date of the transaction.

3) If the investor has not tied /not signed the declaration then default investor will be considered as an existing investor and transaction charges of ₹ 100/- will be deducted for investment of ₹ 10,000/- and above.
